Scenario for Equity

Betty has been working for University Hospital's IT department for 15 years and is 57 years old. She reports that her supervisor has made multiple comments about how great it is when "freshblood" gets into the department, since the millennials are not old dogs and *can* learn new tricks. Betty reports that she has requested to attend various IT trainings but is repeatedly turned down and has not received more than a 1% merit raise in 3 years. Betty also reports that new hires are typically between 22-25 years old.
